

Workshop on Storage Challenges in the UK

The Special Interest Group of High-Performance I/O in the UK organizes this workshop to bring together users of data-intensive workloads, storage vendors, and developers in order to identify common challenges, to develop strategies for research but also product development.

This particular workshop focuses on exchanging information about challenges and the ongoing efforts to overcome them aiming to bring forward RD&E and the use of storage systems (in the UK).

We welcome the submission of talks, short papers that summarize the challenges and ongoing effort in different institutions that we will lead to a joint whitepaper and article submission.

Speakers (selection)

Karthee Sivalingam (Cray)
Andrew Turner (EPCC)
Jay Lofstead (Sandia National Labs)
Julian Kunkel (University of Reading)
Samantha Adams (Met Office)

Key Information

Registration	January 20th, 2019
Workshop	Wed. 6th March, 2019
Venue	University of Reading, Whiteknights

The workshop is supported by

The logo for DDN Storage features the text 'DDN' in a large, bold, white sans-serif font, with a registered trademark symbol (®) to its upper right. Below 'DDN', the word 'STORAGE' is written in a smaller, bold, white sans-serif font. The entire logo is set against a solid red rectangular background.
